LETTER FROM ---- TELLICHERRY.

RECEIVED a lett[illegible] from the Chief & Factors at Tellicherry forwarded by the Shawallum under - date the 27th Ultimo, advising us that the - Prince of Wales & Bombay Galleys arrived with two Gallivatts the 25th of the same month & -- that Mr. Stephen Law the same day at the importunity of Mr. Bradyll took the charge as - Chief of that settlement, The Canaree Army in conjunction wth. that of the Prince Cunhi Nome makes they say about twenty thousand men & are incampt about two miles from Cannanore & ca -- far from Billiapatam, and they intend shortly to attack the Moores and subdue the other ---- powers to the Princes obedience according to the agreement made between them but as the --- moors have a numerous army many defencible --- places & are well prepared for a vigorous defence, our Gentlemen think they will make a -- stout resistance by which they are in hopes to bring about an accommodation and thereby prevent the Trade & produce of the Country in the neighbourhood of that Settlement being ------ destroyed by these contending partys. They - will endeavour likewise they say to open a -- communication with the Canarees and intimate - they have some reason to think they shall ---- succeed. They have now in Warehouse about One thousand & thirty one Candys of Pepper Pepper and by the best calculation they can make ---- there will be thirteen hundred fifty seven --- Candy more wanting to compleat the Tonnage of our three returning Ships to Great Brittain -- which they hope to get ready by the middle of February and likewise in due time the twelve - hundred Candy ordered for the Comptons returning

TELLICHERRY -- LETTER CONSIDERED.-

BY the said advices received from -- Tellicherry our Gentlemen there giving us hopes that they shall be able by the 15th of this --- month to provide the quantity of Pepper wanting to fill up the Monmouth for England RESOLVED -- that we send on board of the said ship with --- all expedition the Pepper & peice goods we --- have in Warehouse & dispatch her immediately - to the Mallabar Coast to fill up at the ------ Settlements there with Pepper, & to prevent as much as in our power any disappointment IT IS AGREED that Mr. William Wake proceed on the -- said ship Monmouth to Anjengo to take upon him

the

Account of our Honble masters consigned to us- likewise a manifest of frieght on board the --- said Ship.-

LETTER FROM --- TELLICHERRY.

RECEIVED by the same conveyance a letter from the Chief and Factors at Tellicherry under date the 9th Ultimo advising us that the Duke of --- Lorrain imported there the 3d. of that month -- and the Greenwich & Marlborough the 6th they -- had contracted the 11th of January for eleven - Candys of Cardamoms at ninety seven Venetians & a half p. Candy and fear they shall not be able to provide in all above Eighteen & a half Candy which is more they say then will be procured -- by both the French & Dutch They likewise contracted the 27th of the same month with Chattoo Chitty for twelve hundred Candys of Pepper at - sixty eight Rupees the Candy and doubt whether they shall be able to make the next purchase on so good terms but however intimate they shall - have sufficient for the loading of our three -- returning Ships- The Prince Cunhi Homo made --- them a visit the 3d. Febry. and in discourse -- with them seem'd to be thoroughly convinced that the Canarees intended to conquer his whole ---- Country and then endeavour to subdue the ------ Samorine and was come to a resolution of ------ raising a considerable force to prevent their - Measures being put in execution but as the ---- Moors refuse resigning to the Prince two Forts & two small redoubts belonging to him our ----- Gentlemen had not as yet fixt any new scheme -- with the Prince to proceed upon on the earnest desire of the Prince they had recalled the ----

Bombay

Bombay Galley and Gallivat.s from Agar, & the Canarees had assured them that none of their Boats should come to that place again, on --- which they thought it not best to disoblige - him on which occasion Ragounaut the Carnatick General gave an order to the several ports of Canara to supply our Gentlemen with rice and exempt them from the additional duty of two - Pagodas the Corge which they had lately laid, and they were preparing boats to bring them a large quantity, The French they say some days since engaged to furnish them with half of --- their Ships loading at prime cost exclusive -- of all but port charges but as none is yet --- arrived, and they have a prospect only of receiving it they desire we would send them the quantity they before requested They had delayed receiving any money of the King of Cotata - and heads of the Pagoda untill they had some - certainty of executing successfully their ---- first project of securing the Peninsula ------ Madagarra & Fort of Billiapatam which scheme - the prince has a very good opinion of and in - all his behaviour seems to be very hearty open and sincere and perfectly inclined to favour & promote the interest of their settlement- A -- few days since they had notice they say that a party of men with some of the ministers of the King of Misure an inland prince who is a professed enemy to the Carnatick Rajah were come to the King of Cotata and offered him such a - force of horse and foot as would be thought -- sufficient to oblige the Canarees to leave the

BOMBAY CASTLE MAY 1755.

The French have received orders they say from Pondicherry to make an Investmt. for Europe - this season of one lack of Rupees and have -- already reced forty thousand Rupees to set -- about it.-

LETTER FROM --- TELLICHERRY.

RECEIVED a letter from the Chief & Factors at Tellicherry forwarded by the Mocho Merchant under date 13th March last advising us that - the Monmouth sailed from thence the 28th ---- February with one thousand twenty five Candys of Pepper for Great Brittain and since the -- last contract which they advised us to have - made with Chattoo Chitty for fifteen hundred Candys of Pepper they had made no further --- purchase; they have now they say in Warehouse six hundred & seventy seven Candy, and if the Chitty performs the said contract they will - have by the 10th April ready to ship off ---- twelve hundred eighty seven Candy & a half -- they are glad they say that we have advanced the Topasses pay in the Gunroom to twenty --- five fanams and are of opinion that if all the other Topasses in their Garrison had the same pay it would be for the interest of our ----- Honble Masters, since thereby there could get good Cochin Topasses to serve them a smaller number of which would answer their end better than those they have at present who are the - scum of the People & not to be depended upon. They have received from Mangulore six thousand three hundred Bales of rice provided there - at fifteen Pagodas & five eighths p. Corge -- exclusive of Frieght being two Rupees the ---

Corge

Corge and other charges which with two thou-
sand five hundred brought by the French Ship
& sixteen hundred bought there, makes in all
ten thousand four hundred Bales which they --
esteem a sufficient supply for their Garrison
&ca. The price of timber is so much advanced
at Callicutt that what used to be procured at
fourteen fanams the Candy is now risen to ---
twenty seven however they have directed -----
Eighteen thousand feet to be provided in the
rainy season for the use of Gombroon Factory
when they hope it will be cheaper.- Callicutt
Factory is gone too much to decay they say to
be repaired, but a convenient new house might
be rebuilt out of the ruins of the old for --
about three thousand Rupees, They have con-
tinually sollicited the Samorine for the pay-
ment of his debt but have not yet received --
any thing.- They inform us that the Canarees
with the Prince Cunhi Homo continue to carry
on the seige of Cannanore, and have made their
approach within pistoll shot of Codaly Fort -
our Gentn. are of opinion that the Moors are
inclined to deliver up that Fort & two or ---
three others at present in their possession to
the Prince to obtain a peace with him & like-
wise that the prince is willing to accept of
these conditions and to get the Moors to join
with him and his friends to compell the -----
Canarees to leave that Country & abandon the
conquest which they have made therein, in whi
they think he will be assisted by the Samorin
not so much out of regard for the Prince Cunh
Homo as to prevent the Canarees attacking his

dominions

dominions when they have subdued those of -- the Prince, in which opinion they are confirmed by a conference their Linguist had -- with the King of Cotata the 4th of March in which his Majesty informed him that not only the Samorine but the King of Misure had ---- agreed to join in the confederacy with the - prince, and would furnish for his quota One thousand horse & five thousand foot, and --- at the same time the King of Cotata made our Gentlemen an offer by their linguist that if they would join with the Allys he would ---- defray all the expences which they should be at both by sea & land, and for their security would immediately deposite in their hands -- two hundred thousand fanams & one hundred --- thousand more to supply their Army with ---- ammunition and whatever might be wanted should be punctually satisfied these offers were so fair and advantageous that they went the fifth of the said month to confer with the French - at Mihie agreable to the Articles stipulated between them (of which they had advised us - in their former letters) but to their grant surprize they found them backward in fulfilling the engagements they had entered into and they absolutely refused joining with our Gentlemen in assisting the prince unless they would engage not only to defray all their -- expences but likewise make them a gratuity of half as much as their expences shall amount to, when the Canarees were expelled the ---- Country, this perfidiousness & breach of ---

Faith

BOMBAY CASTLE MAY 1733.

Faith is the more agravating in the French -- as they made the first overture to our ----- Gentlemen by their letter to them of the 10th of Janry. inviting them to a conference for establishing the peace of the Country in -- which meeting articles of agreement were --- entered into to unite their forces to assist the Prince Cunhi Homo & his allies to oblige the Canarees to leave the Country & abandon the conquests they had made therein but now our Gentlemen are apprehensive the Frenon will assist the Canarees in maintaining what they have taken from the Prince and as it is our interest to stand by & support the Prince to the utmost of our power, Our Gentlemen desire we would give them the necessary orders for their proceeding therein, they intend they - say to keep the Bombay Galley a little longer & then send her up, but detain the two ----- Gallivatts with the Sepoys & detachment of - Soldiers untill the Canarees are removed further off in the meantime they desire a ---- fresh supply of sixty five barrels of Gunpowder.-

LETTERS FROM TELLICHERRY.

RECEIVED Likewise two Letters from the Chief & - Factors at Tellicherry dated the 6th July & 18th September.- The former advising that the Prince had again repeated to them how greatly he was -- Streighten'd for want of Money to carry on his - Wars against the Canarees, That he was no ways desirous of Cultivating a Friendship with any --

other

other European Nation & assured the Gentn. that in his late Transactions with the Dutch he had - no other Intention than to have assigned them so much Pepper as is produced in the Parts now ---- under the Canaree Dominion, which the Dutch ---- Offered to restore to the Malabars, & he imagined we cou'd not be rendered sufferers by granting to them what we are at present excluded from.. He - wou'd not attempt to solicit a Loan, but wished the Gentlemen cou'd think of some way to relieve his present Necessitys, & to enable him to make Head against his Enemys, otherwise the Consequences wou'd be very fatal.. The Gentlemen considering how much it is for the Honble Companys Interest to keep the Prince attach'd to them & - prevent the Designs of the Dutch offered him an aid of one thousand Rupees p. month as a Present & hinted to him how agreeable it wou'd be for him to give a Writing not to have any future Intercourse with any European Nation without their -- Consent, which he readily granted but assured -- them the sum offered was short of his Necessity, & tho. he cou'd not claim it He wish'd they ---- cou'd augment it, however he wou'd repair to his Pallace, & if with that sum he cou'd keep the -- Enemy at a stand, he wou'd then claim it, but -- otherwise decline receiving it, & this Declaration they say did not proceed from his Slighting their offer, but an Unwillingness to put the --- Hon. Company to an Expence that wou'd be of no - Service to him.. The Prince gave them an Ola for holding the Fortress of Edicaut & Madacarra..

THEIR Letter of the 18th September acknowledges the recet of ours of the 19th August, advising --

that

that they had no more than Sixteen hundred ninety two Candys & one Maund of Pepper in Warehouse & feared that what was Outstanding of their Contract being Two hundred Seventy two Candys four Maunds wou'd not be deliver'd till Janry.- They have at last recovered the Mother Queen's Debt - which is doubted by Interest, amounting to Fanams Sixteen thousand & hope in November to receive - the One hundred thousand Fanams the Samorine promised to pay in July last.- That in pursuance of their last they had supplied the Prince with Two thousand Rupees on our Hon. Masters Account & - Lent him Fourteen hundred forty four Rupees, thre quarters twenty five reas, which is carried to - his Account, but finding he was no ways able to withstand the Canarees they laboured all in ---- their Power to Establish a Peace between the --- Canarees & Prince, for which Purpose the Chief, Mr. Lynch & the Linguist were absent fourteen -- days, & were so fortunate as to fix on the ----- following Conditions.-

THE King of Colastree & Prince of Pally having represented the Damages resulting thro. - the Entrance of my Army, & being desirous of --- settling the General Tranquillity We have mutually Agreed on the subsequent Conditions Namely.-

THE CRUIZERS ------- STATION'D.

THE PRESIDENT acquaints the Board ---- that the King George, Rose & Princess Caroline - Galleys being come up from the Southward to clean he did propose to return them to relieve the --- other three lying off the Port of Cereah, but the King George having reced some damage while she - lay on shore, she will not be able to proceed -- till she is repair'd & therefore the President - now proposes to send the Rose & Princess Caroline, & that they with the Britannia remain off Cereah till the 10th March, when we think all - the Trade bound to the Northward will be pass'd by & that they then proceed to Tellicherry in -- Order to give a Countenance & assistance to our Affairs at that Settlement.- The other two ---- Vessels to come up hither WHICH IS UNANIMOUSLY - AGREED TO.-

TELLICHERRY ADVICES CONSIDERED & RESOLUTIONS THEREUPON.

AND the Sundry Advices from Tellicherry being reperused, & Debating thereupon, We are -- very apprehensive that shou'd the Prince accept the offers made by the Dutch, for keeping the -- Canarees out of the Malabar Country, they wou'd find means to deprive us of the greatest part -- of the Pepper Trade of his Country, & We are not to doubt (if we refuse our assistance to him) -- but that he will join in with the Dutch.- On --

the

the other Hand if we consent to assist the ----- Prince vigorously, We are not without Hopes, --- but we might so far distress the Canarees as to make them inclinable to come to Terms of Peace with the Prince, And as the Season is now so -- far spent that the time for Action will not last above two months (as the Army must sit still in the Rains) the Expence cannot amount to any thing very considerable, Whereas our refusal at this - Juncture might be attended with the most fatal - consequences, And therefore on the whole it is - AGREED that we send Orders to the Gentlemen at - Tellicherry to afford the Prince such assistance as they are able, & the Exigency of Affairs may require, & that they employ the Vessels now ---- Agreed to be sent them, & what other Force they can spare, in such manner as may prove most for the Service of the Prince & our Hon. Masters --- Affairs in general either by distressing the --- Canarees or otherwise, as they shall find necessary, recommending to them at the same time not to run into any unnecessary Expence.-

BOMBAY CASTLE MAY 1736.

LETTER FROM TELLICHERRY.

BY a Boat that arrived this day from Tellicherry receed duplicate of a letter from the Chief &ca. there dated the 7th April April forwarded by the Victoria & an original of the 10th of that month, advising that the Dutch Ships being return'd from the Canara Coast, they agreed to join in the confederacy against the Canarees & landed about three hundred Men. The 1st of April about five in the morning the United forces march'd against the enemy (encamped under their fort of Cadalai) who at first made some resistance but being hard press'd they soon gave way, & all our people rush'd under the Fort walls, the enemy were in such great confusion that they did not shutt the gates, a flag of truce was twice hoisted but the Canarees afterwards firing some guns the Dutch & Nairs were exasperated & made great havock; about seven in the morning the English flag was hoisted on one of the Bastions when the Enemy presently left the Fort by jumping over the walls having first lost many of their people with Gopaljee the General & several other principal Officers.- The Dutch lost an Ensign & two Soldiers & of our people Two Seepoys only were killed besides a Topass & two others that were blown up with about One hundred Nairs by their negligence in carrying the lighted matches into one of the Magazines in expectation of plunder. The Camp & Forts were soon plunder'd except the warlike stores in the Fort which by Agreement were to be divided between them & the Dutch & they hope we will approve their giving the value of their Share among the people who all behaved very well & they desire we will allow something monthly to the familys

of those who were killed.- The Prince promised our People a gratuity & has given to each man - of the Victoria's Detachments (who were in the action) a months pay according to his Degree. The enemy had not twenty four hours provisions & must have submitted sooner had not the Moors supplied them, who seem to prefer their staying in the Country to the Prince regaining his ---- Authority; He is gone against their fortresses lying on the other side Billiapatam which they hope he will soon reduce.- They think the King of Canara will after that remain quiet considering 'tis computed that the present undertaking against the Mallabars has cost them ---- twenty two Lack of Pagodas.- They are now pressing the Prince to discharge his debt on Account this war in which they are not afraid of a disappointment.- They received Letters from the -- President & Council at Fort St. George advising of their having sent two Vessels with men & ---- ammunition, but neither of them appearing they fear they cou'd not gain their passage thro. the lateness of the season.- That the French underhand endeavour to keep the Canarees in the ----- Country but finding they cou'd not succeed they made advances for being introduced into the confederacy against them, which were rejected.- That judging they shall not have further occasion for the Victoria they now send her up & they say 'tis owing to the countenance of this Vessel --- that the French did not openly supply the enemy with provisions &ca. That there being reports that the Canarees intend to send three thousand Men to oppose the Mallabars they don't think it prudent yet to part with their force thro. as -

such reports have often been raised by the Force tho. as such reports have often been raised by the French they hope the present one may not be ---- true.. That the Dutch according to their engage ment are actually demolishing Cadalai for which purpose our Gentlemen had sent all the labourers they cou'd spare.. They had received the amount of two Salt boats taken by Lieutt. Inchbird on - his Cruize which were left at Mangulore & sold - there being Rupees one hundred eighty four two - quarters & thirty raes.. They have laden on the Victoria seventy five Candys of Pepper & enclose their Treasury Account with a state of the money issued for Pepper & what received to the date of their Letter..

SATURDAY.....15TH. WROTE to Mr. Hope &ca. at Surat & to Mr. Hugh -- Bidwell pursuant to yesterday's Consultation..

TUESDAY.....18TH. IMPORTED the Victoria Frigate from Tellicherry & the Bombketch with Capt: James Inchbird on ----- board from Choul..

WEDNESDAY.....19TH. IMPORTED the Rose, Princess Caroline, King George & Neptune from Tellicherry by whom we received a

LETTER FROM TELLICHERRY. Letter from the Chief &ca. there dated the 20th April enclosing Invoice of five hundred ninety one Candys & a half Pepper laden on said Vessels amounting to Pagodas two hundred thirteen thou- sand one hundred fifty four.. They say that as the money consigned them on the Richmond will -- not be sufficient to pay for their purchases of Pepper they shall take up at interest what will be wanting on as easy terms as possible.. That the Prince has subdued two Fortresses belonging to the Canarees on the other side Billiapatam &

intends

intends to proceed against three others which -- still remain in their possession & our Gentlemen have assisted him with the Galivats & what men he desired.- They had not received any money -- from him on Account the war but according to his promise might expect a sum every hour.- That - they think it necessary to keep all their force for the present as the Canarees loudly threaten revenge & have sent some horse & foot to Nelle- seram where they have a Fort on the confines of the Mallabars Country.- They are carrying on a small work at Eddicaut point for preventing the French or others invading our Honble Masters --- priviledges the Charge whereof they are endeavou ing to obtain from the Hands of the Country, --- but cannot promise success.- That as no place - is yet fix'd for building the principal Fort on Durmapatam, they deferr cutting any Stones as -- the charge of removing them from one place to -- another wou'd be very considerable & they say -- little time will be lost if it be set about at - the opening of the fair season, They repeat their request that a Skillfull person be sent thither (provided we determine to build fort) that they may not be hereafter censured.- The Dutch have razed the greatest part of Cadalai so that their apprehensions of their continuing in that place are over.- That having notice of Mr. Lowthers - being at Wyhie they wrote a letter to the French Gentlemen & the Chief personally demanded him -- but was refused.-

We hope the Resident will be able to relieve up Raree at the same time with Fort Augustus but if he should not be able he must then leave a sufficient Garison therein for that till the end of October.

Read the Letter above stated from the Resident at Onore which being duly considered the following Remarks were made & Resolutions taken thereon.

From the Nabob's late Conduct in attacking our Allies and suffering our Privileges to be infringed by permitting the Butcha's Effort Pepper and Sandal Wood that Billia patam River and the Resolutions we have taken in Consequence of them Advice, it would be highly inconsistent in us to furnish him with Stores of any kind. The Resident must not therefore grant Permits of this being any Supplies to the Fort Ships or any Warlike Instrument whatever by any one under the Honble Company's protection.

Should a Rupture take place with the Nabob, the Resident must be directed to take every precaution in his power for the Security of the Honble Company's property under his Charge, for which purpose we have ordered the Chief of Tellicherry to give him immediate Advice of this Event in Case of its taking place.

While Affairs are in this precarious Situation we cannot by any Means think of Complying with the Residents for more Rupees more especially as the Ballance of Cash in Office is insufficient to pay for the Pepper he has a Promise of from the Sourindah Country even allowing that he gets it which we must tell him is very doubtfull. Should the Resident not be able to obtain the Money at the same time with the Augustus but she should not be sent then leave sufficient Garrison thereon & proceed to sea till the end of October

Read the Letter above mentioned from the Resident at Onore, which being duly considered the following Remarks were made & Resolutions taken thereon

From the Nabob's late Conduct towards the Attack upon Ollur and suffering our Vessels again to be plundered by his People, the Cutch to export Pepper and Sandal Wood from Tellicherry & Cotaconda River and the Resolutions we have taken in Consequence of those Advices, it would be highly inconvenient at present to enter into Disputes and Storm of any kind & the Measures must rather be pursued of submitting to the Loss & Injury & any Wrong Treatment whatever by any one under the Honble Company's Protection

Should a Rupture take place with the Nabob the Resident must be directed to take every precaution in his power for the Security of the Honble Company's Effects by under his Charge, for which purpose we have ordered the Chief & Factors at Tellicherry to give him immediate Advice of the Event in Case of its taking place

While Affairs are in this precarious Situation we cannot by any Means think of Complying with the Residents former Request more especially as his Balance of Cash is insufficient to pay for the Pepper he has a promise of from the Soundah Country even allowing that he gets it which seems to be very doubtfull. Boundary Camp 2nd June 1858

I have received a letter from Mr Hawkins dated the 1st June from Rock Bar on the Fraser River, in which he informs me that he has arrived there with the Royal Engineers and Sappers and Miners, and that he has found the Rock Bar to be a very formidable obstacle to the navigation of the River, and that the Engineers are of opinion that it will be impossible to blast a channel through it for the passage of Steamers, but that they will endeavour to construct a Canal round it, which will be about 1½ miles in length, and will cost about £20,000 Stg. Mr Hawkins also informs me that he has engaged a number of Indians to assist in transporting the Engineers Stores and Baggage over the Portage, and that he has also purchased a number of Canoes for the same purpose. He also informs me that he has found the Fraser River navigable for Canoes as far as Fort Hope, which is about 15 miles above the Rock Bar, and that he has also found the Harrison River navigable for Canoes for a distance of 12 miles from its mouth, which is about 45 miles from Fort Hope. Mr Hawkins also informs me that he has found the Harrison River to be a very fine River, and that the Land on its banks is of a very superior description.

I do not think it will be necessary for the Engineers to make any survey of the Country between Fort Hope and the Lake, as I am informed that the Land is very poor, and that there is a Mountain Range of Rocks between Fort Hope and the Lake, which will be a very difficult matter to overcome. I think it will be sufficient for the Engineers to make a Survey of the Harrison River, and the Land on its banks, and to ascertain the practicability of a Road from Fort Hope to the Lake, and from the Lake to the Fraser River, and to make a Survey of the Country between the Lake and the Fraser River, and to ascertain the practicability of a Road

Bengal Advices

— Received by the former a Letter from the President and Council at Fort William dated the 11th July, and enclosing Invoice and Bill of Lading of three thousand 3000 Bags of Salt Petre laden on Board the Also a Letter from the Chief and Factors at Vellacherry dated the 13th Instant, on which they owned Receipt of our Commands of the 24th Ultimo, and advised that they had received a Letter from the President and Council at Madrass of the 5th Ultimo acquainting them that the Soubah and Hyder Ally Cawn had actually commenced Hostilities and desiring them to stand upon the Answers formerly sent them to attack the Possessions of the latter, and to furnish them with Military Stores and use such other means as might enable them the more effectually to distress them and facilitate their Operations, but as they expected soon to receive our Orders on this Subject they had deferred taking any Steps of that Nature till then, but have resolved to continue the Neutrality they have hitherto observed towards the Malabar Powers, they rather as any Supplies of Provisions they could share them with the Inhabitants would on their Ground not answer the end proposed of causing a Revolution in those Parts, and as a Northerly Monsoon was then the Prince of Canara still continued to the Northward and had collected a Body of Troops with which he had obliged the Nairs to retire from the Districts of Ramadilly and Coorg, and had on the 6th Instant taken possession of Ramadilly Fort.

Received of Factor a Letter from the Factors and from Mr. Abbot

ad Cove, and another from Mr Sibbald & Eagle.

Read from the Factors here dated the 6th Instant, acknowledging Receipt of our Commands of the 26th Ultimo, agreeable to which Mr Bracey would immediately set out for the Nabobs Army, and was in hopes to overtake that he Bombay might be attended with Advantage, & the Nabob's Affairs, requesting we would send down Gardener & Mr Watson there to convey that Pepper Boats from the Adjacent Places were ready to know of freighting up Pepper upon any good Terms, Reports that might offer would meet our Approbation.

Read the first from Mr Sibbald was dated at Mergee the 20th Instant, & owned Receipt of our Commands of the 2d but informed us that those of the 30th countermanding Mr Braceys proceeding to the Nabob did not arrive there till the 19th and that Gentleman had left Cove on the 17th he discovered on that the Nabob had had a Skirmish with our Troops in which he had lost many of his principal Officers and his eldest Son with Raza Sahib were missing, and that from the great Credit he had obtained Mr Bracey, he thought there was great Room to hope our Affairs with them might shortly be brought to a happy Issue. That having a large quantity of Pepper lying at a great distance up Mergee River he had thought it most advisable first to clear the Warehouses there for which purpose he had brought up the Eagle and Sartor there, and that the latter was now dispatched to us having taken on her 1100 Bags being all she could take in amounting to Rs 370[illegible]. 1.55. That for these two or three years past a considerable quantity of Pepper had been procured at Bilgey, which had formerly been carried to Ireland, by means of making an advance in the month of November of about 12000 Rupees, but as we had disapproved of this Advance last year, he was desirous to know if he might be instructed to make it this, as the Rajah would shortly demand the money, once as without it the Pepper would inevitably go through another Channel, and wherever there was no Regard to Advancing this Advance, but should we not deem it proper to be made he desired to know if we would permit of this Pepper being purchased by private Trade.

The other from Gentleman was dated the 23d Instant, likewise from Mergee, acquainting us he had not then received any Advices from

That from the Factors bore date the 6th Instant, acknowledged Receipt of our Commands of the 24th Ultimo, agreeable to which Mr Bracey would immediately set out for the Nabobs Army, and was but in most Endeavours that he Surrey might be attended with Advantage to the Honble Companys Affairs, requested we would send down a Gallivat to be stationed there to convey their Pepper Boats from the Aggaroom River and desired to know if freighting up Pepper upon any great Country Vessels that might offer would meet our Approbation.

Date . Rec.d

The first from Mr Sibsola was dated at Mirjee the 20th Instant, & viewed Receipt of our Commands of the 2d but informed us that those of the 30th countermanding Mr Braceys proceeding to the Nabob also not arrive there till the 9th and that Gentleman had left Cuare on the 7th he addressed us that the Nabob had had a Skirmish with our Troops in which he had lost many of his principal Officers and his eldest Son with Raza Sahib were missing, and that from the great Credit he had thereby to see Mr Bracey, he thought there was great Reason to hope our Affairs with them might shortly be brought to a happy Issue. That having a large quantity of Pepper lying at a great distance up Mirjee River he had thought it most advisable first to clear the Warehouses there, for which purpose he had brought up the Eagle and Tartar there, and that the latter was soon dispatched to us, having taken on her 1700 Bags being all she could take on amounting to Rs. 37694. 1. 55. That for these two or three years past a considerable quantity of Pepper had been procured at Bilgey, which had formerly been carried Inland, by means of making an advance on the month of November of about 12000 Rupees, but as we had disapproved of this Advance last year, he was desirous to know if he might be permitted to make it this, as the Raja's would shortly demand the money, and as without it the Pepper would inevitably go through another Channel, and assured us there was no Risque attending this Advance, but should we not decree it proper to be made he desired to know of we would permit of his Pepper being purchased by private Trade.

The other from that Gentleman was dated the 23d Instant, wherein from Mirjee, acquainting us he had not then received any Advices from

we had directed, and that the only Bond that remained outstanding to be returned was one to Captain Pethick for 20000 Rupees, but which being in the Hands of that Gentleman at Tellicherry when they concluded was unable to discharge the same here and that it must therefore be transmitted to their Masters accordingly; informed us that in consequence of an application from the Gentlemen at Anjengo for Cash they had sent them a Supply by a Sloop from Bombay Rupees nine hundred to the amount of £ 1657.14.1 Sterling and that the Ship that have had left the Lord Mansfield at Colombo the 6th Instant, enclosed a Sterling Account, assured that the Remains of Pethpar at Anjengo by the last Accounts from thence was Candies 607.13.21 of Pethpar, of which Article they themselves had in Warehouse Candies 1284.12.15; and as Pethpar is acquainted us that some of their principal Inhabitants had made, on the Chief's acquainting them that they had been advised by Letters of veracity that Hyder Ally had sent Orders to the Commanding Officer on those parts to attack Tellicherry, and the Bay could not at that time come at any certain Intelligence of the advice they thought proper to answer as it, and to assure us that their utmost endeavours should be exerted to repel any Attempts that might be made on their Districts.

Read from the Commander of the Earl of Chatham Secretary the 26th Instant acknowledged Receipt of our Orders to him under the 7th of that Month, to which he should shew due Obedience, but as professed his Commission at its being wholly out of his power to call at Onore for Pethpar, as his Ship was then quite full, having only Candies 2 or 300 Tellicherry Rice at Madrass, exhibiting Orders as the Gentlemen at Tellicherry to recommended it to him he should touch at Onore, and as professed his Opinion that what he had at Board would be sufficient Reason for not fulfilling our Intentions in respect to the Pethpar.

Read from Mr Farrer Resident at Onore dated the 20th Instant enclosed a Packet from Mr Storey, and acquainted us that the Body of Water in Mirjee River not being sufficient to admit the Ingress of Ships she have been obliged to remove to Onore, and as in her Order, received for her being sent to Mirjee, she have accordingly sailed for that place the 25th Instant, and as he was apprehensive of the following us with the Ships the Fleet in her way down he have ordered the Hy Galliott to accompany her, as should any Accident have happened to her before her arrival there, it might have occasioned disagreeable disputes with the Dutch.

receive more Goodness would be procured and moreover
the Ballance of Cash to be Rupees 40,000 & 50

Letter from — The other from Thence was dated the 20th March &
advised that the Bombay Grab with Dispatches from
Admiralty had arrived there from Tom Bay but that
as the Wind had been contrary they apprehended that the
Nabob had made Peace with the Marattas he had got to
Poona the Detachment as a Force unnecessary and were
in Doubt thereof. That he had having received any
Orders Letters as to the use he was to make of the Force
left him at a loss how to act but that of the Nabob Con-
ducting all the matters he should rather have Reasons
for the Grab or Detachment, tho' he should wait the
Nabobs Answer and hoped to convince him of the former
intended him

Letter from Bombay Council — That from Bombay Consultation and Letters from
the 30th March and mentioned that they had sent
up on a Country Ship part of the Detachment sent
